Subject: Greenheck/Price Visits  
May 10 – 12, 2011

Dear Vin:

On behalf of my colleagues I would like to express our gratitude for arranging our visits to the Greenheck and Price facilities in May. We greatly appreciated the opportunity to travel with you to observe their extensive research and production facilities and the seminars that each company provided to us.

We all agreed the visits were excellent experiences for us to learn more about your products, their testing, and the industry standards that they are striving to exceed. We were impressed with the commitment to acoustical research at Price. Their new Research Center is an enviable resource. The staff at Greenheck taught us a great deal about AMCA standards related to noise ratings and how Greenheck is working to comply with these standards. The extensive testing and manufacturing facilities at Greenheck were also very impressive. We look forward to further exchanges of information and knowledge with both your firm and these manufacturers. As the visits demonstrated, such exchanges provide all of our firms with the opportunity to increase our collective knowledge base.

Please extend our gratitude to everyone else who assisted with the visits.

As always, please let us know if we can be of any assistance to you. You can reach me at 617-499-8039.

Thank you again for your generous hospitality.

Sincerely,

ACENTECH INCORPORATED
