AIRFLOW MEASUREMENT FOR ACCEPTABLE IAQ

SEMINAR FOR BUILDING OWNERS & ENGINEERS

Join us for this half-day Seminar and discover the best money-saving strategies for today's high-performance buildings. Key topics will include retrofits, energy conservation, and Indoor Environmental Quality (IEQ).

SEMINAR SPEAKER

DAVE DOUGAN,
EBTRON INC.
PRESIDENT

David Dougan has over 29 years of experience with EBTRON, Inc., a leading manufacturer of airflow measurement technology. Dougan has been the President of EBTRON since 1993 with prior experience as the Director of Product Development for the Company. Throughout his tenure, Dougan has been an integral part of the design and development of products that have broken ground in the industry. Dougan has authored and published numerous papers on airflow measurement and control that have been featured in renowned publications such as the ASHRAE Journal. His expertise in the measurement and control of airflow rates for acceptable indoor air quality and building pressurization has landed him a role as a sought-after guest speaker for Lunch n' Learns, LEED - accredited seminars, and major events for professional industry organizations.

SEMINAR LOCATION

**THE WESTIN BOSTON
WATERFRONT HOTEL
WEBSTER ROOM**
425 SUMMER STREET
BOSTON, MA 02210
